

# Future of PPPs

## (Public Private Partnerships)

### VALUE FOR MONEY

There is lack of conclusive evidence and data available to determine how the PPP procurement model delivers value for money

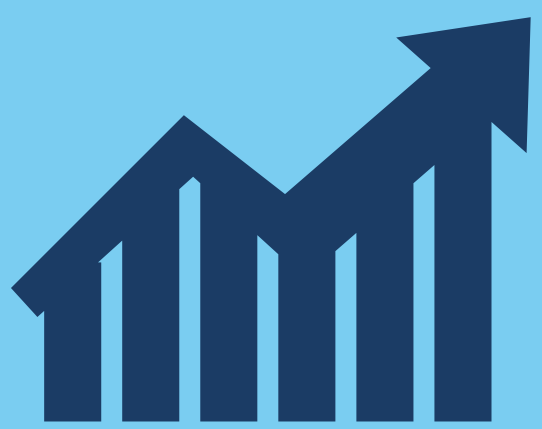

### FORECASTING

Decisions are made based on the forecasts during the transaction phase which can take up to 4-5 years but they are not reassessed during the operations phase that can take 20-30 years

### SUCCESS RATE

The success of the PPPs procurement model is easy to determine if real-time data is mapped against the forecasts periodically

### ASSURANCE AND GOVERNANCE

In future, the success of PPP procurement model depends on the long-term focus, real time data, accountability and transparency
